

Use Cases

Media & News Industry

Challenges

Declining print subscriptions, falling ad revenue, youth disengagement from news.

Solution

AI Newsroom

AI Writing Assistant
Drafting / Summaries /
Headlines

AI Voice Distribution
Article Narration / Podcasts

Personalized
News Delivery

Reader Community
AI-Moderated Comments

Impact

⚡ 60% faster article
creation

☐ New reader
demographics

☐ Higher comment quality

☐ Easy multilingual
distribution

Key Features:

- AI writing assistant (drafts, headlines, fact-checking)
- Personalized news delivery
- AI voice narration (listen during commute/housework)
- AI comment moderation
- Page Builder for no-code breaking news pages

Real Estate Industry

Challenges

Inefficient property management, personalized customer service gaps, insufficient overseas investor outreach.

Solution

FEATURE	APPLICATION
AI Property Concierge	24/7 auto-response, multilingual
Hybrid Search	Natural language + structured filters
Page Builder Templates	Property pages from templates
AI Translation	Automatic JA/ZH/EN translation
AI Documentation	Automated property report generation

FEATURE	APPLICATION
Smart Notifications	Viewing reminders, price drop alerts

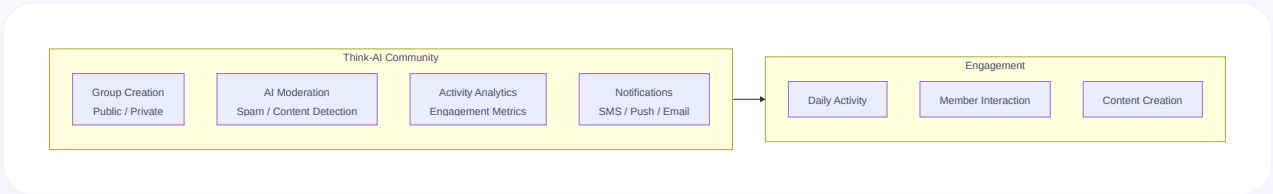

Education

Challenges

Online education quality, personalized instruction automation, community building.

FEATURE	APPLICATION
AI Tutoring	24/7 student support, personalized learning
Course Page Builder	No-code course page creation
Community Features	Class groups, discussion management
Media Processing	Lecture transcription, translation
