

PLATFORM OVERVIEW 2026

Think-AI

THE AI-POWERED SOCIAL PLATFORM

An AI-integrated social networking platform combining CMS flexibility with multi-model AI — chat, voice, image generation, and visual page building — in one unified system. Ready for media, real estate, education, and beyond.

AI-Native

Multi-Provider

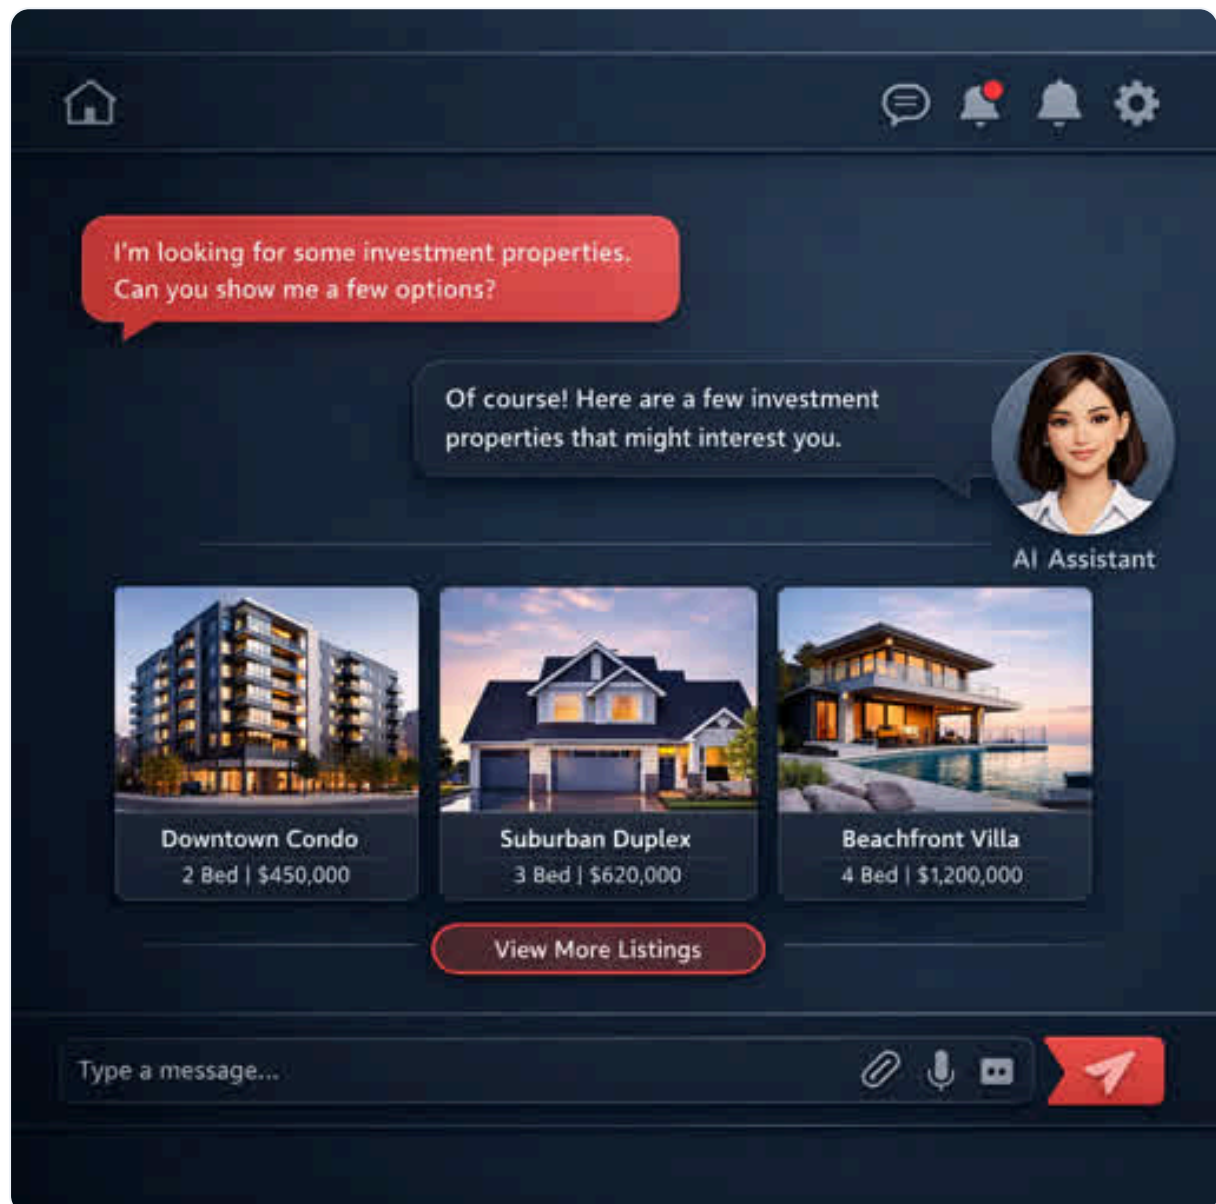

No-Code Builder

Self-Hosted

01 Core Capabilities

Seven integrated AI features that ship with every Think-AI instance.

Feature	Description
☐ Multi-Model AI Chat	OpenAI · Gemini · DeepSeek · Qwen · GLM. Smart model routing per task.
☐ Real-Time Voice	Multi-provider voice engine with STT/TTS. Interruption support.
☐ Image Generation	DALL-E · Tongyi Wanxiang · Stable Diffusion. In-platform creation.
☐ Smart Notifications	SMS (AWS SNS) + Web Push. Natural-language reminders. Audit trail.
☐ Media Processing	Video/audio/image pipeline. Transcription, translation, subtitles.
☐ Visual Page Builder	Drag-and-drop with live API binding. JSON Schema editor. Public hosting.

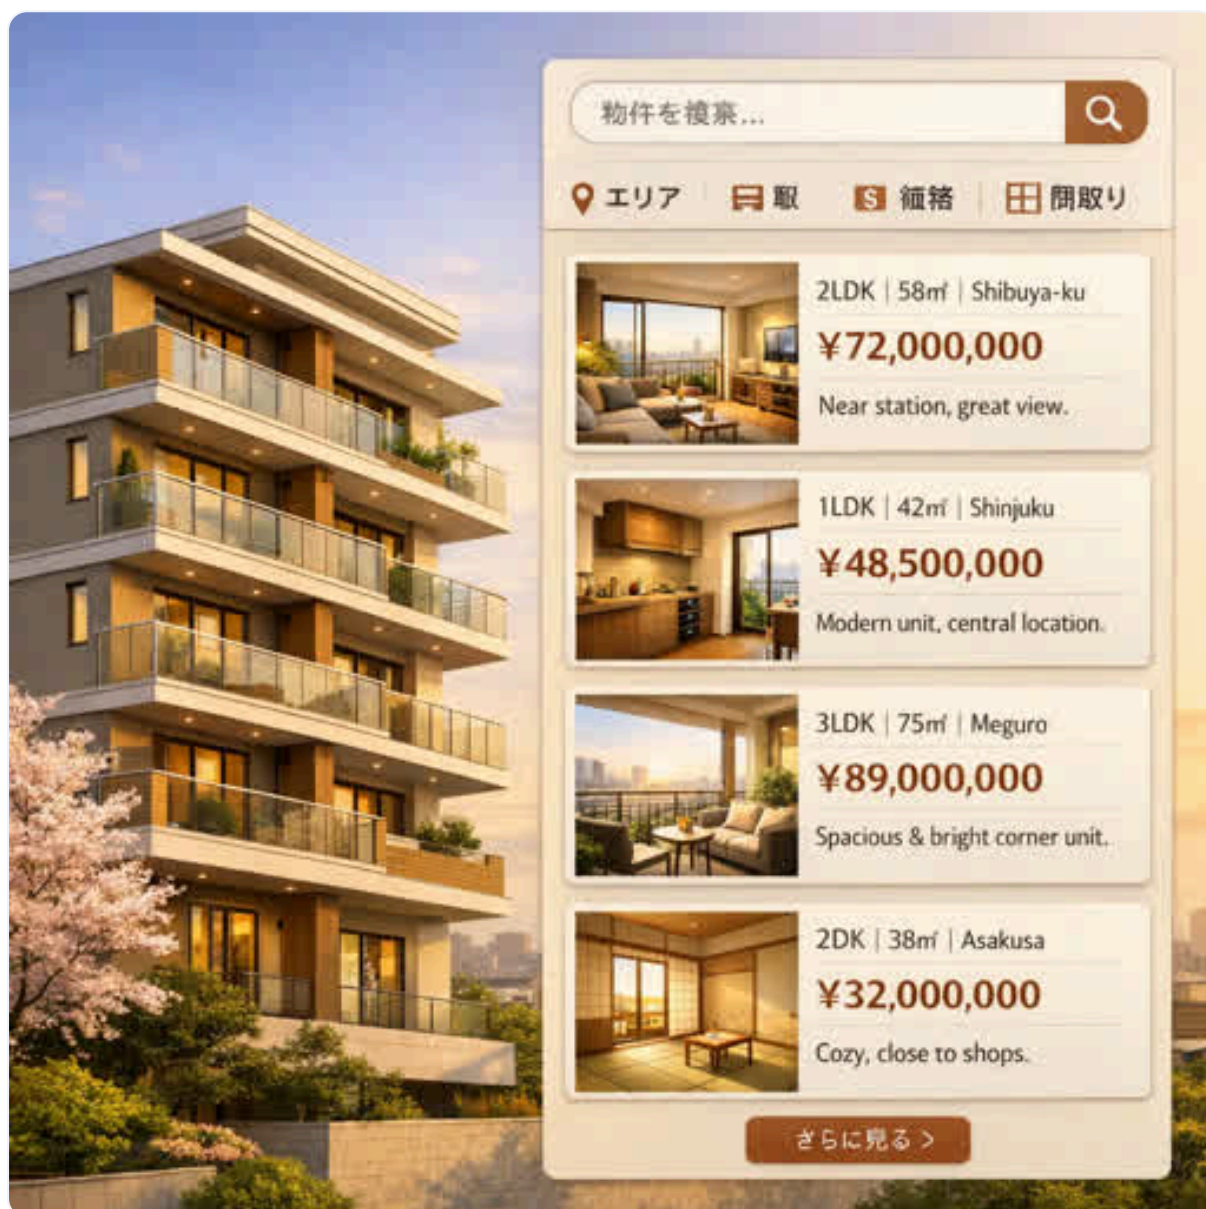

☐ Technical Foundation

Layer	Technology
Backend	Node.js (Express) — Ghost CMS v5.116.2 fork
Frontend	Next.js 14 · React 18 · MUI v6 · Tailwind
AI	Vercel AI SDK · OpenAI · Gemini · DeepSeek · Qwen
Infrastructure	MySQL 8 · S3 · AWS SNS · Docker

02 Why Choose Think-AI

Advantage	Description
□ AI-Native by Design	AI woven into every layer — not bolted on. First-class platform citizens.
□ Multi-Provider Freedom	No lock-in. Smart router picks best model per task.
□ No-Code Building	Drag-and-drop with live API binding. Non-technical teams build UIs.
□ Data Sovereignty	Self-hosted. Your data stays yours. No third-party access.
□ Production-Ready	Docker · Prometheus · Audit logs. Deploy anywhere.
□ Extensible	Open-source core. Add endpoints, components, industry modules.

□ Extend to Any Industry

Component	Application
□ Page Builder	Property listings · Articles · Products · Courses
□ AI Assistant	Chatbots · Content Gen · Analysis · Tutoring

03 □ Media & Publishing

"Declining print subscriptions, falling ad revenue, younger audiences disengaged from news — AI creates new reader experiences."

Feature	Application
□ AI Journalist Assistant	Draft articles, generate headlines, fact-check, auto-transcribe interviews
□ Personalized News	AI recommendations based on reading history. Digital edition layouts
□ AI Moderation	Auto-detect hate speech and spam. Healthy reader communities
□ Reader Communities	Article-specific group discussions, journalist Q&A, reader submissions
□ Page Builder	Editors create special coverage pages without developer help
□ Voice Distribution	AI narration for articles. Listen during commute or chores
□ Media Processing	Auto transcription of press conferences. Podcast generation

Japan Market Strengths

□□ Gradual Digitalization

Respect print culture while supporting digital transition

□ Low-Cost Entry

Self-hosted reduces monthly costs. Start small

□ Multi-Language

AI translation opens local news to global audiences

□ National Network

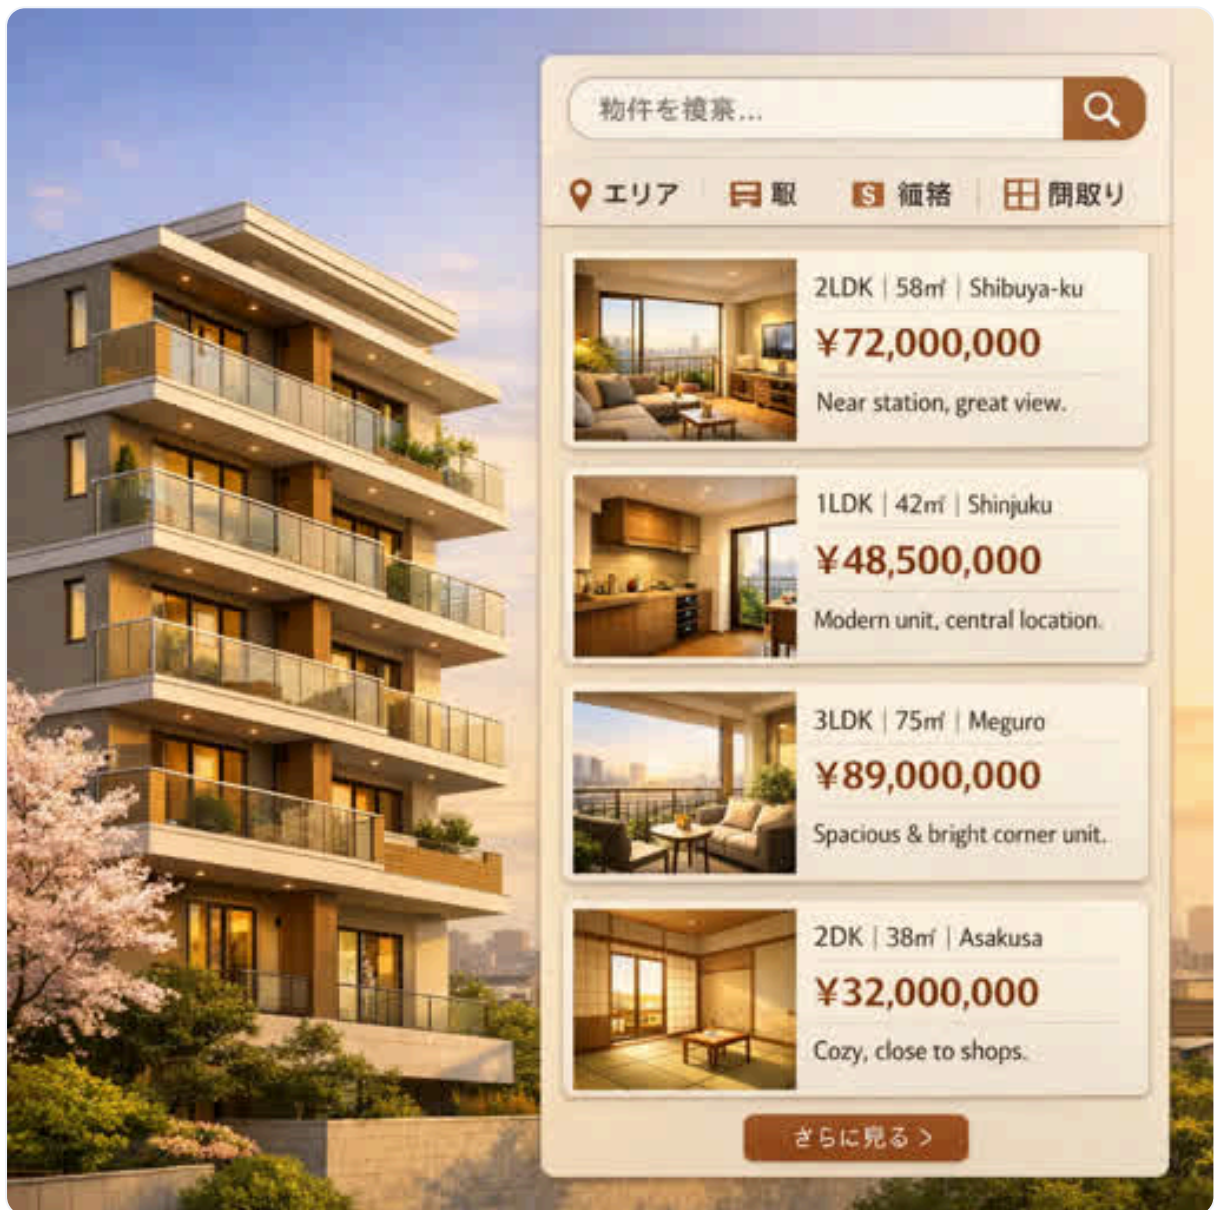

Connect 47 prefectural newspapers into a news hub

"Every newspaper becomes an AI-powered media platform — personalized news, interactive communities"

04 Real Estate

"Property management, customer service, showing coordination, document creation — manual inefficiencies solved by AI."

Feature	Application
□ AI Property Concierge	24/7 inquiry handling. Multi-language support. Matchmaking
□ Page Builder	Rental/sale/investment category pages. Auto data updates
□ Hybrid AI Search	Natural language + condition filters. Voice input supported
□ AI Micoku Generation	Auto-generate property sheets from existing + open data
□ Smart Notifications	Showing reminders, price drops, contract deadlines
□ AI Translation	Auto JA ↔ CN property info. For overseas investors
□ SNS Auto-Posting	WeChat · Weibo · X · Facebook simultaneous publishing

Implementation Roadmap

Phase	Content	Timing
□ Ready Now	AI Chat · Translation · Page Builder · Reminders · Media Processing	Now
□ Extensible	Real Estate AI Agents · Property Templates · Data Integration	Q3 2026
□ New Development	Property Data Model · Dashboard · Booking · Simple CRM	Q3-Q4 2026

THINK-AI — INDUSTRY: REAL ESTATE

CONFIDENTIAL 04

"Fully digitized real estate — from AI property matching to immersive virtual tours, automated client

05 Strategic Roadmap

Period	Platform	Media	Real Estate
Q2 2026	Core v1.0	—	—
Q3 2026	API & SDK	Newsroom Tools · AI Journalism	Property Builder · Agent Suite
Q4 2026	Template Marketplace	Reader Engagement · AI Workshop	Virtual Tour · AI Micoku
Q1 2027	Education Module	Data Journalism	AR/3D Tours

Our Declaration

Think-AI is not just a social platform — it is a **foundation for AI-powered digital transformation across industries.**

With the visual **Page Builder** as our extensibility layer and the **AI Assistant** as our intelligence layer, any business domain can be rapidly prototyped and deployed. Missing features are not roadblocks — they are Page Builder templates waiting to be created.

We invite partners from **media, real estate, education, and beyond** to build the future on Think-AI.
